STEVEN BELLONE
SUPERVISOR

June 16, 2009

To Whom It May Concern:

The Town of Babylon has many years of experience in dealing with Aurora Contractors. Aurora has been involved with numerous high profile projects that have significantly improved our community. Airport Plaza, an \$80 Million retail center and The Arches at Deer Park, a \$180 Million lifestyle center, are two such projects.

The Arches at Deer Park, Tanger's second retail outlet center on Long Island, was especially impressive as it was built to comply with the Town's newly implemented Green Building Program. Aurora diligently researched and implemented the LEED requirements, including the addition of a rail spur for debris removal, in order to reduce the greenhouse gas emissions and help reduce additional traffic around the building site. At this time, the project is in the final stages of the certification process.

Aurora's integrity, communication and management skills have always fostered an atmosphere of teamwork with our Town. All of the Town's departments, including Building, Planning, Zoning, Traffic Safety and Fire Marshals, have experienced Aurora's thoroughness and professionalism. Everyone at Aurora, from the project executive to the laborers, take a personal interest in every project that they manage and are always available to every member of the project team. It has always been a pleasure dealing with the people at Aurora, and I believe that they would be a valuable member of any project team.

If I can be of further assistance, please do not hesitate to contact my office.

Sincerely,

STEVEN BELLONE
Supervisor
